Letter from the Superintendent of Schools

The Southern Berkshire Regional School District is pleased to present its Annual Approved Budget for Fiscal Year 2021. Shaped by input from key stakeholders, the proposed budget was presented for further input at the Public Budget Hearing on March 5, 2020 and voted by the School Committee on March 12, 2020. It represents a 1.47% increase over the FY20 budget of \$17,287,531. I believe at the budget as presented support our vision of the District, aligns resources with the goals of the School Committee and our District Strategy for Continuous Improvement, and sustains the commitment to providing educational excellence within our means.

More specifically, the FY21 Proposed Budget funds investments in the following strategic initiatives:

- ensuring a rigorous program that retains and attracts students to the District;
- continuing to support teacher collaboration time to promote curriculum planning, renewal, development, and alignment across all levels;
- programming that develops and supports the social and emotional learning and behavioral needs of all;
- the continuation of the enhancements to our network to support safety and wellness of the whole child;
- the infusion of technology and project-based learning into learning environments for students;
- the continued implementation of our Middle Level Program that includes students in grades 6-8; and
- continued progress on the reorganization of programming at the secondary level to ensure that our students graduate with the knowledge and skills necessary for success in college and career, using strategic partnerships with the broader community.

To support allocations toward these strategic initiatives, the District has successfully identified guiding principles in the budget development process:

- build a budget that is reflective of the District's Vision;
- based on a District Strategy for Continuous Improvement;
- to sustain the District's commitment to educational excellence;
- to develop assessments that are manageable to the member towns;
- to provide effective programming and staffing levels that foster continuous improvement in the most cost-efficient manner;
- to communicate clearly with all stakeholders;
- to allocate resources strategically to create an aligned system Pre-K to 12;
- to be proactive rather than reactive; and
- to make data-driven decisions and recommendations based on what's best for our students.

As stated in Southern Berkshire Regional School District's Vision Statement: the District envisions *"a rigorous educational environment that prepares and inspires all students to be resilient, curious, and ethical global citizens who embrace the challenges of an ever-changing world through a commitment to our core values."* By understanding the significant economic realities, and by continuing to create rigorous and relevant educational opportunities for students, I am confident that the District's FY21 Proposed Budget strives to bring our students closer to achieving this vision.

Respectfully, Beth Regulbuto, Superintendent of Schools

FY21 BUDGET PROCESS

THE STATE BUDGET PROCESS

Each year, the Governor of Massachusetts must propose the Commonwealth's budget for the following year by the 4th Wednesday in January. This preliminary budget is the basis upon which our annual budget is created. The Governor's budget is sent to the House Committee on Ways and Means. That committee reviews the budget, holds public hearings, and releases its own budget to the full House of Representatives. Once passed by the House, the budget goes to the Senate Committee on Ways and Means. The Senate goes through a similar process, which ends with the Senate sending its own proposed budget to the House Conference Committee. A Conference Committee budget is then developed and sent to the Governor for his approval. The Governor then signs the budget, vetoes parts of the budget, or vetoes the entire budget. A 2/3 vote in each chamber can override the Governor's veto(s). This proposal is based on the Governor's numbers. The legislature has not put forth any budget proposals at the time of this hearing.

FY21 OPERATING BUDGET TIMELINE

October	Superintendent presents and School Committee votes to approve Superintendent's goals (annual action plan). School Committee accepts October 1st enrollment report.
November	Finance Sub-Committee convenes to discuss general budget plan and direction for the upcoming fiscal year.
December	District Administration meets, along with Buildings, Grounds and Technology sub-committee, and compiles capital project lists. Budget guidelines and budget request sheets are distributed to principals, directors and curriculum leaders. Directors, principals and curriculum leaders submit their estimates of FY20 budget requests.
January - February	Review and input initial PreK-12 educational budget plan worksheets Meet to discuss development of figures, justification of new expenditures, proposed significant increases and long-term goals for buildings/programs Central Office records estimated non-salary items as well as contracted salaries into the District budget.
March	Assemble key stakeholders for comprehensive input, analysis and discussion of financial short-term and long-term goals and plans for school district and member towns.

FY21 BUDGET ANALYSIS

FIVE-YEAR HISTORICAL LOOK AT SBRSD ENROLLMENT AND ASSESSMENTS

A look at public school enrollment figures for students living within our five member towns shows an increase of 3 students from FY20 to FY21, and a total decrease of 86 students from FY17 to FY21 (from 715 to 671 students). This represents a 1.2% increase since FY18 and a 6.3% decrease since FY17. From FY20 to FY21, Alford, Egremont, and New Marlborough are seeing a decrease of 1, 9, and 6 students, respectively; while Monterey and Sheffield are seeing increases of 15 and 3 students, respectively.

These changes in enrollment, along with implementation of the Chapter 70 funding formula, result in a change in the percentage share of our annual budget for which each town is responsible.

Each town’s share of the SBRSD operating and capital budgets, per the current five-town regional agreement, is based on the minimum required contribution that is established by the Massachusetts Department of Secondary and Elementary Education (DESE). Some of the factors that are included in the Commonwealth’s calculation are:

- the number of students residing in each town who are being educated in public schools,
- each town’s property wealth (based on the town’s equalized valuation of its properties),
- each town’s income wealth (based on the total personal income reported to the Department of Revenue by Sheffield residents), and
- how far or close each town’s calculated preliminary minimum required contribution is to the state’s “target” contribution for that town
- each town’s Municipal Revenue Growth Factor, which is based on new growth in the town.

GENERAL FUND REVENUES

Revenues from federal and state grants, state aid, and local sources support the District's annual overall budget. The budget that towns are taxed on is the General Fund budget. The revenue sources used to support the General Fund budget from FY17 through the proposed FY21 budget are as follows:

INFORMATION ON GENERAL FUND REVENUES

TUITION – REGULAR

This revenue has historically been revenue received from the Town of Mount Washington for students tuitioning into this district. The number of students has decreased over the years, resulting in a projected reduction in revenue in FY19 to \$18,000, which has remained steady since then. This revenue in FY17 was \$69,946.

CHAPTER 70 STATE AID

Our increases in Chapter 70 funding have been minimal over a number of years. Massachusetts recently passed the Student Opportunity Act (SOA), which recalculated the formula for state aid. While several communities saw a substantial increase in their Chapter 70 funding, SBRSD did not. Increases in Chapter 70 funding from FY17 – FY21 are shown below. Our FY21 allocation is 4.12% higher than was our FY17 allocation.

CHAPTER 70 AID			
	TOTAL	Increase from Prior Year	
FY17	\$1,927,527	\$39,325	2.1%
F718	\$1,966,751	\$19,320	1.1%
FY19	\$1,966,751	\$19,320	1.0%
FY20	\$1,980,111	\$13,360	0.7%
FY21	\$2,006,921	\$26,810	1.35%

CHAPTER 71 REGIONAL TRANSPORTATION REIMBURSEMENT

Regional transportation reimbursements from the state are calculated on the prior year's expenditures. Regular transportation costs for children who live at least 1.5 miles away from the school are the only costs eligible for reimbursement. We are not reimbursed for special transportation for students whose individual education plans require transportation or for school choice transportation. The FY20 projection is based on preliminary Cherry Sheet figures from the state. This figure could change when the final reimbursement rate is established.

MEDICAID REIMBURSEMENT

In 1988, federal law was amended to allow Medicaid payment for services provided to children under the Individuals with Disabilities Education Act (IDEA). Local education authorities (LEAs), such as regional school districts, can seek payment for providing medically necessary Medicaid services (direct services) to eligible MassHealth-enrolled children when these services are included in their individual education plans (IEPs). Direct service and administrative activities are eligible. The FY21 budget includes a projection of \$120,000 in reimbursements.

ASSESSMENTS

The state’s Chapter 70 formula and our Regional Agreement dictate the calculation of assessments to the individual towns. Once we establish the expenditure side of the budget, we subtract all estimated revenues, other than assessments, from the total of the expenditures. The remainder is what we assess the towns. The following chart summarizes the FY17-FY21 assessments, shows the change from FY20-21 and the percent change by town. The full detail of the assessments for each of the towns by operating, capital, and bond projects can be found on page 9 of this document.

EXCESS AND DEFICIENCY FUNDS

A regional school district’s Excess and Deficiency Fund (E&D) is comparable to a municipality’s Free Cash. E&D funds are funds that result from revenues coming in higher and/or expenditures coming in lower than budgeted. The Department of Revenue certifies the amount of E&D funds each year as of July 1st. These funds, once certified, are available as a revenue source in the upcoming year’s budget. A regional school district’s school committee may use all or part of the certified balance. However, if the certified balance exceeds 5% of the following year’s proposed budget, the school committee *must* use the amount in excess of 5% as a revenue source. A historical look at the SBRSD’s E&D fund follows:

EXCESS & DEFICIENCY FUND (E&D) SUMMARY					
Certified as of:	Certified Amount	Returned to Towns (5% above budget)	Amount Applied to Next Year's Budget		
7/1/2015	\$540,120	\$0	\$400,000	FY16

**This is the estimated use of E&D for FY21.*

INVESTMENT INCOME

Investment income averages just over \$7,000, and is projected at \$7,000 for FY21.

OTHER

“Other” income is income that does not fit within the other categories listed and is most often unanticipated. It is projected at \$1,000 in FY21.

FOCUS ON TWO ADDITIONAL FUNDING SOURCES USED TO REDUCE ASSESSMENTS

CIRCUIT BREAKER PROGRAM

The state special education reimbursement program, commonly known as the circuit breaker program, was started in FY04 to provide additional state funding to districts for high-cost special education students. The threshold for eligibility is tied to four times the state average foundation per-pupil budget as calculated under the Chapter 70 program, with the intent that the state pays 75 percent of the costs above that threshold. For children placed in a school district outside their hometown by the Department of Transitional Assistance or the Department of Children and Families, and for children who have no parents or guardians in the commonwealth, the reimbursement is 100 percent above the threshold rather than 75 percent. Circuit breaker reimbursements are for the district's prior year expenses and must be expended in the fiscal year they are received or in the following year.

In addition to the regular circuit breaker reimbursements, the "extraordinary relief" program provides funding to help districts experiencing a significant increase in their special education costs. Under this program, districts may file an additional claim form in February for the current year's estimated expenses. If the expenses have increased by 25 percent or more over the prior fiscal year, then the district will be eligible for an additional extraordinary relief payment to help fund the increase. Extraordinary relief funds must be expended in the year they are received.

The Student Opportunity Act, recently passed into law in Massachusetts, now allows for out-of-district transportation costs that fit into the Circuit Breaker Program's definitions to be reimbursed. The Department of Elementary and Secondary Education is currently preparing to implement this program. This will assist the district in paying for associated costs for transporting students to out-of-district placements. We continue to monitor this situation as it unfolds.

A summary of activity in the Circuit Breaker Fund for the past five years follows.

CIRCUIT BREAKER FUND						
	STANDARD REIMBURSEMENT	EXTRAORDINARY RELIEF	TOTAL REVENUE	EXPENDITURES	USE OF FUNDS

SCHOOL CHOICE

The School Choice program diverts state funding from sending districts to receiving districts. For regular education students who receive no additional special educational services, the funding is \$5,000 per student. For students receiving additional special educational services, incremental funding

is sent to cover the cost of those services. Here is a look at revenues and expenditures from these funds from FY16 through the proposed FY20 budget:

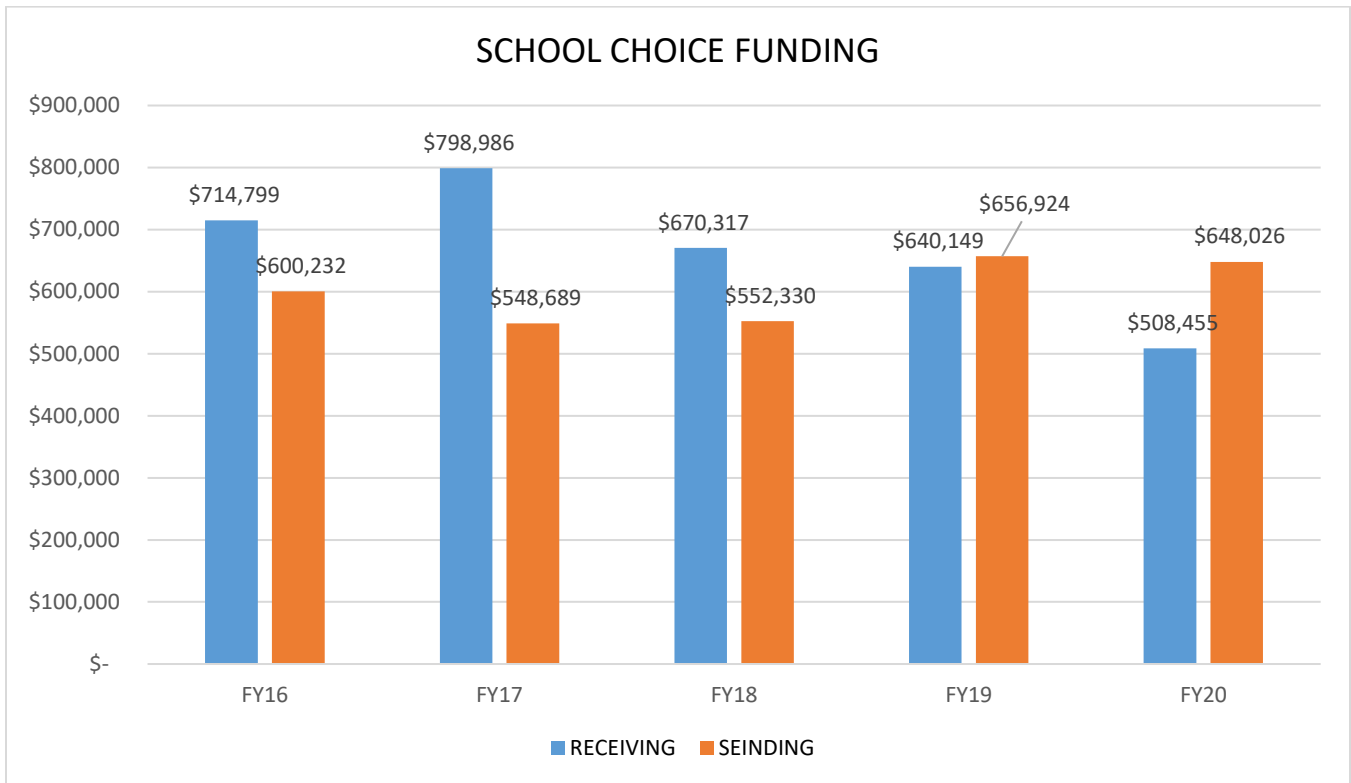

SCHOOL CHOICE FUND SUMMARY					
	<u>Beginning Balance</u>	<u>Revenues</u>	<u>Expenditures</u>	<u>Ending Balance</u>	<u>Use of Funds</u>

*FY20 reflects anticipated revenues/expenses to the end of the fiscal year.
 **FY21 reflects estimated revenues/expenses.

SBRSD had been receiving more students than we had lost through School Choice since FY16. In FY19, that trend began to reverse. In terms of funding, our choice-in revenue had exceeded our choice-out expenditures since FY15. Analyses will be undertaken to ensure that continuing to accept school choice students remains a programmatic and/or financial benefit to the district. Note: FY20 figures are a result of October 1, 2019 enrollments and will be counted, moving forward, by the DESE as FTEs.

(Source: Massachusetts Department of Elementary and Secondary Education as of December 2019)

(Note: FY20 amounts are per October 1, 2019 enrollment. These will be subject to continued refinement throughout the course of the year.

ROOF, BOILER and SPRINKLER PROJECT

The roof, boiler and sprinkler project is complete, with final payments having gone out to contractors in March 2017. We received the final audit and reimbursement of \$124,656 from the Massachusetts School Building Authority (MSBA) in August 2017.

Information distributed in advance of the towns’ votes to approve the roof and boiler project estimated that the total project costs would be \$7.74 million. The estimated MSBA grant total was \$2.74 million. An additional \$360,000 Department of Energy Resources (DOER) Schools and Public Housing Integrating Renewables and Efficiency (SAPHIRE) grant towards the cost of the pellet boilers left the estimated balance to be paid by the towns at \$4.64 million.

Final costs for the project totaled \$6.6 million, much lower than was originally anticipated. Total costs include the installation of a new sprinkler system, which the MSBA required when it was determined that the existing system was not functioning and needed to be replaced. The final MSBA grant totaled \$2.04 million, due to a reduction in actual and eligible costs. The district took out multiple bond anticipation notes (BANs) to fund the project while it was ongoing. The final BAN of \$4.2 million was paid off when the district issued a 15-year, \$3,605,000 long-term bond in November 2017.

The new boiler uses a renewable energy source (wood pellets) to heat the Undermountain and Mt. Everett schools. The DOER supported this project through its SAPHIRE Grant to assist in the State’s efforts to achieve sustainability and meet carbon reduction goals.

The biomass system that SBRSD installed was recommended by the Department of Energy Resources (DOER) and was identified at the time as meeting the State’s requirements for Alternative Energy Credits (AECs). After the system was installed, and upon review of new AEC requirements, it was determined that adjustments to the metering system were needed in order to test and record emission levels. SBRSD received \$111,796 in grant funds from the DOER for a new metering system and for emissions testing. The District has received word that we do now qualify for the AECs. We do not yet have final figures, but we will be receiving a retroactive payment and then ongoing payments. As promised when the project was originally proposed to the taxpayers, this revenue will be earmarked to help pay down the bond.
